YES LASER HAIR REMOVER

permanent hair reduction

Yes Laser Hair Remover works by sending a laser beam to the hair follicle with enough energy to permanently disable the root without affecting the surrounding area. The result is a permanent hair reduction. YES automatically scans the skin, treating up to 60 hairs in just a few seconds or alternatively targeting individual problem hairs. With an advanced LCD display, permanent hair reduction is now easier than ever.

MODEL: LAHC6

- ▶ LCD Display
- ▶ treat up to 60 hairs* in a few seconds
- ▶ 808nm pulsed laser
- ▶ permanent hair reduction
- ▶ security key

FACIAL RENEW

stimulates collagen production

Facial ReNew is an energy based anti-wrinkle and skin rejuvenation treatment for the face. Rio Facial ReNew, targets thermal energy (heat) into the skin to initiate natural collagen production to improve skin tone, elasticity and texture, and reduce the appearance of fine lines and wrinkles.

With aging the connective tissue (collagen and elastin) in the skin weakens and becomes thinner, causing the skin to loosen and lose its elasticity, resulting in sagging and wrinkles. By stimulating collagen production this process can be reversed giving visible skin tightening, firming and renewal.

MODEL: DEFR

- ▶ creates Heat Shock Proteins (HSP) which stimulate natural collagen production
- ▶ uses advanced 1Mhz RF technology
- ▶ portable and rechargeable

AQUASONIC WATER FLOSSER & SONIC S31 TOOTHBRUSH

for better gum and oral health

A powerful water flosser and super-efficient sonic toothbrush combination to intensively clean teeth and help improve gum health. The water flosser jet blasts away plaque, bacteria and food debris from between the teeth, but is gentle enough for use on even the most sensitive gums. The sonic vibration toothbrush stimulates water and saliva between teeth and reaches below the gum-line to clean areas that normal toothbrush bristles can't reach.

For best results, use the complete tooth and gum regime twice a day. Suitable for use with braces, implants, crowns, or periodontal pockets.
